

# What Agents Say About Advocus

## Why Advocus? We're glad you asked.

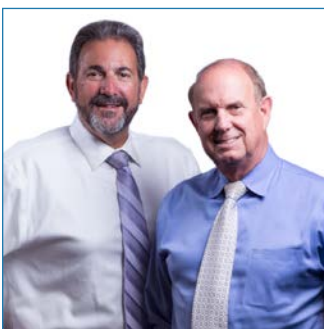

**“The service is the best, hands down.** Placing a title order is fast and efficient thanks to their technology, but the human side is great too. And you can't beat Advocus for CLE. The quality, variety, and convenience are all outstanding. I'm in close contact with Advocus staff on every transaction. As soon as they have closing figures, I know I'll have my client's documents and bottomline amount. Being an Advocus agent makes it easy to earn referrals; people have a positive experience with my services through Advocus, they pass that on. Advocus works for me. I mean that in every sense of the word.”

**“Joining the Advocus family is one of the best things I've done in my career.** This organization has always been way ahead of the curve for real estate lawyers. The tools and services available through Advocus have improved my lawyering skills and made my law office more efficient, which ultimately reduces costs to clients.”

Agent Since 1999

**“Service first, profitability second.** Real estate is a significant part of our practice, residential and large commercial transactions. We have knowledge and experience, but thanks to Advocus, we have internal practices and resources in place that allow us to serve lenders and developers on any size deal. We interact with Advocus on a regular basis; to describe the staff as 'knowledgeable and helpful' is true, but it's an understatement. The level of hands-on service and personal attention is unmatched in this industry. The Advocus philosophy is lawyer-oriented for the benefit of the client—and they stay true to that, every day.”
