WHAT YOU WILL LEARN:

You can think of many different reasons your clients may receive money in a large, lump-sum payment, including the following:

- Physical injury settlement;
- Sale of a business;
- Real estate sales;
- Employment dispute;
- Non-bodily injury insurance settlement; and
- § 468(B) qualified settlement fund.

These are only a few examples. What will you tell your clients when they come to you for advice? Will you be able to help them keep their money without losing a significant portion of it to taxes? Whenever one party has an obligation to make payments to another, a structured transaction will often provide a “win-win” solution!

The **Payee/Plaintiff** benefits from the following:

- Deferral of payments lessens the tax bill;
- Alternative Minimum Tax (AMT) may be avoided, legally;
- Payments are guaranteed by a Fortune 50 Company; and
- Attorney's fees can also be structured!

The **Payor/Defendant** benefits from the following:

- A full tax deduction in the year of payment;
- No ongoing payment obligations or administrative expense; and
- A closed file - No responsibility to guarantee payments.

Structured transactions are not just for personal injury lawyers. Regardless of your area of concentration, this program will show you how to structure your transactions to take full advantage of this powerful tax deferral tool.

WHO SHOULD ATTEND:

All lawyers, paralegals, or legal assistants.
